

REMARKS

Initially, Applicant expresses appreciation to the Examiner for the time and attention spent in conducting a thorough examination of this case.

We note that this amendment is being filed to amend the title, including the correction of typographical errors that were introduced in a recent Examiner's Amendment. The amended title included various typographical errors. For example, "...BY FORCING A MUTUAL EXCLUSION RULES..." which should read "...BY ENFORCING MUTUAL EXCLUSION RULES." Additionally, "...TASKS TO END-USER" should have instead been amended to recite "...TASKS TO AN END-USER."

Additionally, the title, as amended by the Examiner, incorporates selective features claimed by Applicant, and does not reflect the claim as a whole in which multiple service providers can register with the system and be used to check the health status of a computer. Accordingly, by this amendment, Applicant has amended the title to more accurately describe the invention as a whole.

In the event that the Examiner finds any remaining impediment to a prompt issuance of the application that may be clarified through a telephone interview, the Examiner is requested to contact the undersigned attorney at (801) 533-9800.

Dated this 14th day of February, 2007

Respectfully submitted,
